To Whom It May Concern:

For many years I have had the opportunity to use the BladderScan from Diagnostic Ultrasound Corp and find it to be an invaluable tool for use not only in the acute care setting but also in my own practice. The BladderScan is extremely easy to use for the clinician and provides the results quickly and in an easy to read format. I've also found my patients greatly appreciate it's use as it has greatly decreased the number of urethral catheters I use when assessing bladder volume.

As a result of this, I highly recommend its use in both the acute care and private practice settings.

Sincerely,

A handwritten signature in black ink, appearing to be "BR", with a long, sweeping underline that extends to the right.

Bruce Rosenzweig, M.D.
