## Elkin Surgical

Liz Albertson, M.D. 150 Parkwood Dr., Elkin, NC 28621 (336) 526- 2629

---

To whom it may concern,

I have used the Bladderscan in an office setting as well as in the hospital setting for the last 13 years of my Urological practice. I have always been satisfied with the results I have received with the scanner.

I also strongly support the noninvasive technique of the bladder scanner to receive information on my patients voiding habits.

In all my years using the scanner, I have never encountered any technical difficulty or malfunction of the machine.

I can't imagine practicing without the Bladderscanners and would highly recommend it to any medical professional.

Sincerely,  
Liz Albertson, M.D.
