

# INTRODUCING VIDEO BATON QC LARGE

## Evolve Your GlideScope Collection

GlideScope® Video Baton QC Large is a reusable video baton designed to work with the GlideScope Core™ system to provide a consistently clear, real-time view of the airway.

### Evolved

Video Baton QC Large features magnetic QuickConnect™ technology at the connector enabling improved workflow and intuitive video cable connectivity.

### Usable

Video Baton QC Large is designed with an updated flange\* for easier grip during GVL® Stat disconnection and disposal and incorporates our Reveal™ anti-fog mechanism to resist lens fogging.

### Cost-Effective

Video Baton QC Large uses the same cost-effective, single-use GVL Stats you may already be using. Our GVL Stats help with infection control initiatives, potentially lowering the cost of hospital readmissions.

To learn more, contact your local representative or visit [GlideScopeVideoBaton.com](http://GlideScopeVideoBaton.com)
