

VIDEO BATON 2.0 LARGE

Complete Your GlideScope Collection

GlideScope® Video Baton 2.0 Large is a reusable video baton designed to work with GlideScope® Core™ and GlideScope® Go™ systems to provide a consistently clear, real-time view of the airway.

Adaptable

The HDMI-like connector enables compatibility with GlideScope Core, GlideScope Go and the GlideScope Video Monitor.

Usable

Video Baton 2.0 Large features an updated flange* for easier grip during GVL® Stat disconnection and disposal and incorporates our Reveal™ anti-fog mechanism to resist lens fogging.

Cost-Effective

Video Baton 2.0 Large uses the same cost-effective, single-use GVL Stats you may already be using. Our GVL Stats help with infection control initiatives, potentially lowering the cost of hospital readmissions.
